OBJECTIVE

Analytical and forward-thinking Information Systems student with expertise in system documentation, data dictionaries, and workflow automation. Eager to contribute as a Junior Systems Analyst by translating complex business requirements into efficient technical blueprints.

PROJECTS

ACMES – Capstone | Developer / Collaborator **Jan 2026 - Present**

- Collaborated on system integration, code reviews, and detailed technical documentation to align system architecture with project specifications.

Fitness Web | Front-End Developer **2025**

- Developed responsive front-end components using HTML, CSS, and JavaScript, optimizing page load speeds and overall user engagement.

Burger Mobile UI | UI/UX Designer **2024**

- Designed an intuitive mobile UI by creating high-fidelity wireframes and interactive prototypes in Figma based on stakeholder feedback.

ACTMS – Agricultural Monitoring | Designer **2024**

- Designed user-friendly UI mockups and established functional workflows to streamline complex data visualization.

Water Billing System | Lead Developer **2023**

- Acted as Lead Developer to design database schemas, streamlining billing processes and reducing data errors by ~25%.

Tic Tac Toe | Sole Developer **2023**

- Programmed a fully functional game using Java, executing standalone application logic and implementing rigorous debugging.

CERTIFICATIONS & AWARDS

- 3rd Place – Startup Sundayag (2025)
- HTML Essentials
- Cybersecurity Essentials
- Junior Cybersecurity Analyst Career Path
